NIMSC (NONCONSUMBABLE MATERIEL SUPPORT CODE)

Description: A code assigned by the military services to non-consumable Items, which indicates (1) the degree of material support obtained by the Secondary Inventory Control Activity (SICA) from the Primary Inventory Control Activity (PICA) of (2) the service and/or method of repair for the logistic functions which are to be performed by the PICA in support of the SICA. Alpha codes are applicable to the PICA records and reflect the PICA source(s) for accomplishment of depot maintenance or other maintenance arrangement

Number of Characters: ONE

Type of Code: ALPHA/NUMERIC

CODE	DEFINITION/EXPLANATION
1	Exception Item (End Item of Equipment). This code identifies SICA managed End Items of equipment assigned to another service PICA that is responsible for the wholesale logistics support functions of single submitter of cataloging data, acquisition and disposal authority. Supply support requirements will be submitted by the SICA to the PICA on Military Inter-departmental Purchase Requests (MIPRs), unless otherwise directed by the PICA. The SICA is responsible for the wholesale stock, store, and issue functions, in support of SICA activities and has retained Depot repair capability where applicable. Retention of Depot Maintenance capability for End Items of equipment requires documented justification by the SICA to the PICA via JCL Form 19. If PICA and SICA cannot reach an agreement the documentation will be forwarded to the joint MISMOs for a decision.
2	Exception Item (Depot Repairable Component or SICA Managed Consumable). This code identifies SICA managed Depot repairable components or SICA managed consumables wherein the SICA cannot use repaired items, assigned to

NIMSC (NONCONSUMBABLE MATERIEL SUPPORT CODE)

CODE	DEFINITION/EXPLANATION
	another service which has responsibility for the logistics functions of single submitter of cataloging data, acquisition and disposal authority. Supply support requirements will be submitted by the SICA to the PICA in MIPR's unless otherwise directed by PICA. The SICA service has retained the wholesale stock, store, and issue functions in support of SICA activities and has retained Depot repair capability, where applicable. Retention of Depot Maintenance capability for the Depot reparable components requires documented justification by the SICA to the PICA via JCL Form 19. If the PICA and SICA cannot reach an agreement, the documentation will be forwarded to the joint MISMOs for a decision.
3	End Item Primary Inventory Control Activity. This code identifies SICA managed End Items or equipment assigned to another service PICA that is responsible for the wholesale logistics support functions of single submitter of cataloging data, acquisition and Disposal Authority and depot maintenance, if required, to be provided by DMISA. Supply support requirements will be submitted by the SICA to the PICA on MIPRs unless otherwise directed by PICA. The SICA is responsible for the wholesale stock, store, and issue functions for SICA activities.
4	Depot Reparable Component. (Type I Temporary). This code identifies SICA managed depot reparable components assigned to another service PICA that is responsible for the logistics function of single submitter of cataloging data, acquisition and disposal authority and depot maintenance to be provided by DMISA. Supply support requirements will be submitted by the SICA to the PICA. The SICA is responsible for the wholesale stock, store and issue functions for SICA activities. This code is temporarily assigned to items which have not completed Phase II item review processing.
5	Depot Reparable Component (Type II). This code identifies SICA managed depot reparable components assigned to another service which is responsible for the logistics functions of single submitter cataloger, acquisition and disposal authority,

NIMSC (NONCONSUMBABLE MATERIEL SUPPORT CODE)

CODE	DEFINITION/EXPLANATION
-------------	-------------------------------

depot maintenance, and performs the wholesale stock, store, and issue functions and establishes, budgets, and funds the wholesale stock level requirement. Supply requirements will be submitted to the PICA on requisitions which are funded by a designated point within the SICA. Unserviceable SICA assets will normally be returned to the PICA for credit. The SICA will provide item/program data required by the PICA to meet the materiel support commitments. Normally, Military Interdepartmental Purchase Request (MIPR), will not be requested by the PICA to support SICA NIMSC 5 requirements.

- | | |
|---|--|
| 6 | Requisitioning Activity Funded Items. This code identifies items wherein SICA activities have been authorized by their parent service to submit requisitions directly to the PICA. These items are usually managed as consumable (expense) items by the SICA service. |
| 7 | JCAP Cognizance. This item is under JCAP cognizance and supply support will be determined by DoD Single Manager for Conventional Ammunition. Provisions of this regulation will not apply. |
| 8 | Depot Repairable Component (Type I). This code identifies SICA managed depot repairable components which have been reviewed for migration to Type II, but will be retained under Type I management. The PICA will have responsibility for the logistics functions of single submitter of cataloging data, acquisition and disposal authority, and depot maintenance to be provided by DMISA. Supply support requirements will be submitted by the SICA via MIPRs unless otherwise directed by the PICA. The SICA is responsible for wholesale stock, store, and issue functions for SICA activities. |

NIMSC (NONCONSUMBABLE MATERIEL SUPPORT CODE)

CODE	DEFINITION/EXPLANATION
9.	Exception Item (Depot Maintenance Review Not Completed). This code identifies items wherein assignment for depot repair has not been established. PICA responsibilities are limited to single submitter of cataloging data, acquisition and disposal authority. Upon completion of depot maintenance review, and assignment for depot repair is made, code 9 items will be reassigned to code 1, 2, 3, 5, 6, or 8.
0	DLSC File Conversion Code. This code was assigned by DLSC to existing wholesale inter-service supply and support agreement (WISSA) type recording (LOA 8D) during initial file conversion program. This code is reassigned to code 1, 2, 3, 5, 6 or 8 upon completion of item review.
A	An activity within the Army is providing depot maintenance support.
B	Multi-service Organic Repair. The depot repair requirement of two or more services is being performed organically by more than one service.
E	Excess overflow which is contracted by the PICA.
F	An activity within the Air Force is providing depot maintenance support.
J	JCAP Cognizance. This item is under JCAP cognizance and supply will be determined by the DoD single manager for conventional ammunition. Provisions of this regulation won't apply.
M	An activity within the Marine Corps is providing depot maintenance support.
P	Total depot maintenance is being done by commercial contract.
